ASTERS

"A B C" Supreme Quality
Especially Recommended for Cut Flowers

CHICAGO GIANT BEAUTY

This new Aster is somewhat of the Crego and Beauty type, but is practically non-lateral, producing flowers of immense size without disbudding and of wonderful substance on strong, stiff stems, 20 to 24 inches long, acclaimed by wholesale and retail florists as the ideal of Cut-Flower Aster

CINERARIA HYBRIDA (Grandiflora)

"The World's Best Strain"

The result of many years of painstaking selection on the part of an American Specialist and truly entitled to the classification—"World's Best Strain" produces immense trusses of blooms which frequently measure from 3 to 4 inches across.

Trade Pkt.

"Private Stock" EXHIBITION Pansy Mixture

PANSY, A. B. C. PRIVATE STOCK

Realizing the importance of the Pansy to many growers, both as cut flowers and for bedding plant sales, and the fact that Fancy Pansies are half sold when offered to the public, we offer:

A. B. C. "Private Stock" Exhibition Mixture

which has been grown for us exclusively by the foremost Pansy Specialist in the East and without exaggeration we can state that this strain represents the Acme of Pansy culture.

The flowers are of enormous size and of unusual substance, with long, strong stems. This strain comprises a most beautiful collection of colors and markings, including very rare shades of scarlet, brown blood red and purple, and is the finest mixture, in size, color and texture. We may add that all who saw our Pansies declared they had never seen flowers of such perfection.

The seed is saved by careful selection from the most perfect flowers only.

Trade pkt., 50c; per ¼ oz., \$1.25; per ¼ oz., \$2.00; per oz., \$7.00.

A. B. C. SPECIAL CUT FLOWER STRAIN, tr. pkt., 50c; ¼ oz., \$1.25; ¼ oz., \$2.00 per oz., \$7.00.

"COMMERCIAL FLORICULTURE," by Fritz Bahr

A new and up-to-date book covering every phase of plant culture. A practical manual for the retail plant grower. Five hundred pages, two hundred and seventy-five halftone illustrations. Bound in flexible leather. Every grower, no matter how large or how small, should have a copy of this book. We have secured a number of copies that we take pleasure in recommending to our customers. Price, \$5.00.

A. B. C. Supreme Quality

ZINNIAS

NEW

DAHLIA-FLOWERED TYPE

The black and white production illustrated on this page shows type and size, including the immense depth of petals, but can convey no adequate idea of the richness of the colors. Rich rose, glowing orange, flaming scarlet, clear yellow—there is a Dahlia-Flowered Zinnia to harmonize with every color scheme. No wonder, then, that Florists are eager to add them to their collections of cut flowers for summer and fall. Zinnias are of the easiest culture of all annuals, and bloom over a longer period than any other annual. They thrive and bloom throughout the hottest days of summer, lending that touch of color which is so desirable and maintaining their splendor until the advent of frost.

These new Zinnias are recommended for growing under glass for cutting (treat same as Calendulas) as well as for outdoor planting.

DAHLIA-FLOWERED NAMED VARIETIES

We offer the following choice named varieties as well as a very good mixture.

- Crimson Monarch.** Beautiful red shade.
 - Scarlet Flame.** Large bright scarlet with a delightful blending of orange throughout the petal. This is not a bicolor.
 - Oriole.** Orange and gold bicolor, as beautiful as the bird it is named after.
 - Dream.** A fine deep lavender turning to purple.
 - Golden State.** Rich Orange.
 - Old Rose.** Real old rose shades.
 - Polar Bear.** A very large pure white. The best white yet seen in Zinnias.
 - Giant Attraction.** A distinct shade of brick red; forms into an immense ball of color when in full bloom.
 - Meteor.** Rich glowing deep red.
 - Buttercup.** An immense, deep creamy yellow.
 - Canary Bird.** A delicate shade of primrose.
- Price of each of above: Trade Pkt., 50c; ¼ Oz., \$1.50; \$5.00 per Oz.

SPECIAL OFFER—One large tr. pkt., each of any seven varieties selected from above for \$5.00.

Special Mixture—Price tr. pkt., 50c; \$2.50 per oz.

NOTE! As supply of above in named varieties is as yet limited, we suggest early orders for same.

GLADIOLI

Large Flowering Primulinus Hybrids

Alice Tiplady

Some years ago, Mr. A. Miller, president of the American Bulb Co., sensed the value to the florists' trade of some of the more recent introductions of this type and secured from American specialists (A. E. Kunderd and others), likewise Holland growers, and at considerable expense, a collection of varieties which had already made a name for themselves in the American and European markets, the bulbs of which have been propagated on Hazelcrest farms and are now offered to the trade at prices within the reach of all (see opposite column). The extreme gracefulness of this new form commends them to every retail florist, and they are in a class by themselves especially for bouquet, basket work, etc. Another very important feature to the grower is that varieties like Maiden's Blush (illustrated and described opposite) can be brought into bloom in about 80 days from time of planting.

The following is an extract from the Florists' Exchange, issue of April 21, 1923, by that well known florist and horticultural writer, Fritz Bahr. Note what he says regarding the value of PRIMULINUS HYBRIDS, as well as an economical way of planting bulbs.

Planted Between the Annuals

"If you sow Asters, Zinnias and other annuals in frames outdoors to be either sold as plants during May and June or for use in your own grounds, it might be well to consider sowing the rows just a little wider and plant Gladioli between them. This will in no way interfere with the seedlings; by the time you take them up, the Gladioli will hardly be over 6 in. or 8 in. in height, but even if they should be taller than that, they won't cause any shade to speak of. Planting Gladioli in a frame now will mean that you are able to cut flowers maybe ten days or two weeks sooner than when planted in the open. Are you going to plant enough of the Primulinus hybrids this season? They are especially good for early flowering and so much more graceful than the larger-flowering varieties. Plant first-sized bulbs for early; we find that even the small-sized bulbs of this sort bloom if given enough time, but of course they don't give as heavy spikes as the larger bulbs."

Mr. A. Miller, Pres.,
American Bulb Co., 172 N. Wabash Ave., Chicago, Ill.

Dear Sir:
I received the sample shipment of Gladiolus Maiden's Blush with your request to tell you something about the quality of the flower. The letter without the sample shipment would have been sufficient, because the Gladiolus is known to me. This is the second season we are selling this type. It is a good grower, blooms early and gives a very good return. It is one of the best lasting among the Primulinus gladioli, better lasting than any of the others and producing a better form of flower.

In water the Maiden's Blush develops up to the last flower. We are using it as a cut flower and for decorative purposes, both to good advantage, and it is a very valuable commercial variety.

Yours very truly,

(Signed) Max Schling.

ROANOKE (Prim.)—Vigorous and large. Rich yellow	5.00	45.00	4.50	40.00	4.00	35.00
SOUVENIR (Prim.)—New. A pure canary yellow Primulinus grandiflorus, the most perfect flowering of the purest canary yellow, grows and multiplies very good	6.50	60.00	6.00	55.00	5.50	50.00
SUNBEAM (Prim.)—Pure yellow. Long spike of well formed flowers	4.50	40.00	4.00	35.00
PRIMULINUS HYBRIDS —A new race of remarkable, dainty and beautiful Gladioli. Perhaps orange and gold colors predominate, but they combine every shade in the rainbow. Usually the flowers are hooded, somewhat smaller than the ordinary Gladioli and the stems are gracefully curved. Very early	3.00	25.00	2.50	20.00	2.20	17.00

All these varieties are recommended for forcing. Equally serviceable for open-ground culture.

GLADIOLUS MAIDEN'S BLUSH

The basket illustrated above was arranged by the well-known Chicago retailer,

Mr. George Wienhoeber,

and presented as a birthday gift to His Honor the Mayor of Chicago, who remarked in his letter of acceptance that it was indeed as beautiful as a Maiden's Blush.

GLADIOLI—Continued

Mainly produced on our own farms at Hazelcrest, Ill., and under high cultivation.

Ninety per cent of the success in forcing Gladioli is, we believe, due to planting bulbs that have been especially cured for that purpose, and not such as have been cultivated during the summer season for cut flower production. We have specialized in forcing Gladioli for several years and our properly arranged curing rooms now contain a sufficient quantity of the kinds most desirable for the above-named purpose as well as for outdoor planting. The varieties listed on these pages comprise all that is good in cut-flowers and which can be had at a moderate price.

If you do not want stock shipped at once, we will hold same in our warehouses, where storage conditions are of the best, and ship at any date you name, up to March 15th. But order should be placed NOW if you desire to take advantage of the low prices as contained in this SPECIAL OFFERING.

LARGE FLOWERING GLADIOLUS
Mrs. Frank Pendleton
(Kunderd)

This grand variety has, we believe, had the greatest influence in popularizing the better types of Gladiolus. Although Mrs. Pendleton has been on the market for several years, it is still in a class by itself for art flowers and garden show as well.—A. B. C.

Extract from the writing of Fritz Bahr, author of "Commercial Floriculture" and for the past 40 years a Practical Grower.

In spite of all that has been said and written about Gladioli, the many years they have been with us and the many beautiful new sorts which have been introduced during the past 20 years, but comparatively few florists make the money out of them they should. To make Gladioli pay one must handle desirable sorts to begin with, start planting from January on up to the time when everybody is filling gardens with them, and plant again for a late crop. A batch of bulbs planted now and followed up every three weeks or so will not only produce the finest spikes from May on but make it a most profitable crop which can be successfully handled in even the smallest greenhouse with 5 feet of headroom above the benches, and if short on bench room just now you can carry the plants along in 4-in. pots for the next two months and plant out later. A Carnation house temperature does nicely—for extra early outdoor flowering bulbs can be started the same way in pots, say about the first of March, and planted in a frame later. Good sorts cost money, but they are the only ones for the florist to handle, and it pays to take care of them. You can't grow too many, but try to have them in flower at a time when the people who buy them haven't any of their own in the garden.

STANDARD MIXTURE —This mixture is made up of good standard sorts. We recommend it to those who desire a good cut flower assortment.....	2.00	15.00	1.70	12.00						

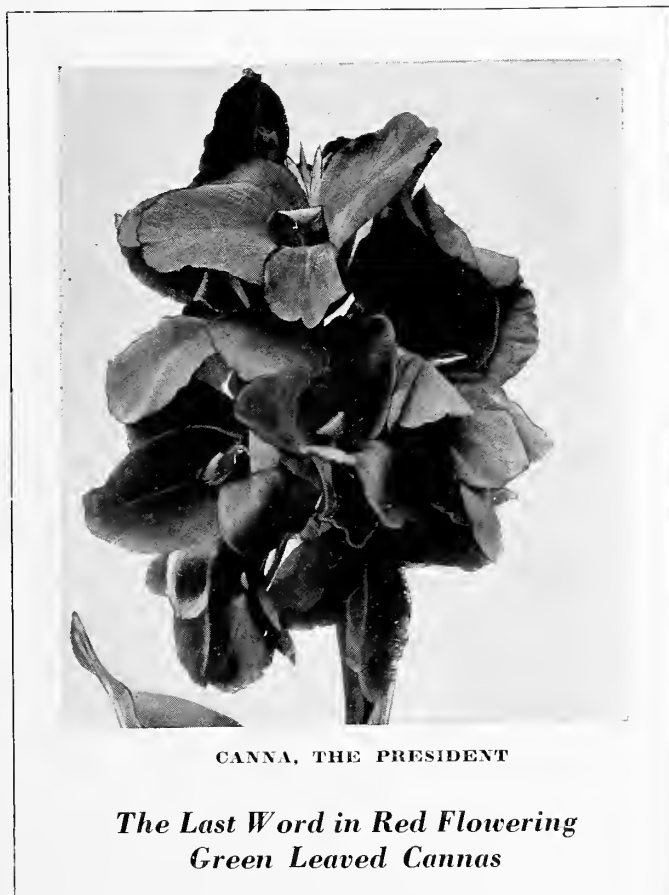

LARGE FLOWERING **Cannas**
A. B. C. Supreme Quality

STRONG 2 TO 3 EYE DORMANT ROOTS. TRUE TO NAME

With their delightful tropical foliage, and brilliant flower spikes produced all Summer long, Cannas are probably the greatest of all plants for the grounds of Public Parks, Cemeteries, Hospitals, etc., where massed effect is required, and to a lesser degree for the adornment, with other plants, for the beds and borders of private residences. Florists who cater to such a class of trade should have a good supply of started plants ready when the planting season commences. Our Cannas are grown by one of the most reliable Southern growers, carefully harvested and divided with from two to three growing eyes.

This list comprises all the leading sorts wanted by the trade, healthy and true to name.

CANNA, THE PRESIDENT

*The Last Word in Red Flowering
Green Leaved Cannas*

**4 Grand Cannas
That Stand Out Above All Others**

The President. 4 ft. his immense new flaming Per Per
scarlet has come into wider use more quickly 100 1000
than any other Canna. It is an offspring of the
famous Firebird. The President leads the red
varieties in the quality and also the quantity of
its bloom. The flowers are 7 inches across; the
individual petals are firm and long standing, and
do not burn, and the trusses stand up stiff on
strong stems. The foliage is rich green and
burn-proof in the hottest weather.....\$4.00 \$35.00

King Humbert. This remarkable Gold Medal
Canna has been the sensation of the past ten
years and is the greatest favorite today. It is
a cross between the orchid-flowering and the
French, or Crozy type, combining the large flow-
ers of the one with the free-blooming character
of the other, with handsome, broad, tropical
foliage. Scarlet flowers; bronze leaves..... 3.50 30.00

Yellow King Humbert. 4 ft. An orchid-flowering
sport of the well-known King Humbert. Has
the same habit of growth as its parent; foliage
a very dark green, with flowers measuring 5 to
7 inches across; individual petals measuring 3 to
3½ inches in diameter. Color of flower a deep
rich yellow, softly spotted and blotched with
bright red. Some plants will occasionally give a
scarlet or scarlet striped flower, which we con-
sider an improvement rather than a deficit..... 4.00 35.00

Mrs. Alfred Conard. One of the very best Cannas
in commerce today. The large, exquisitely
shaded salmon-pink flowers are produced in
great abundance on robust, upright stalks. We
consider this as superior to all pink flowered
Cannas. 4 ft. 5.00 40.00

Rochester, N. Y., September 4, 1923.

"The Cannas I bought from you this spring were the
best I ever had, and every one true to name."

A. SCHEIL.

See page 22 for General List of Cannas

LILY OF THE VALLEY

Our stock of these is imported direct by us from the foremost Lily of the Valley grower in Germany, and is of unsurpassed quality. We can supply these in cases of 500-1000 and 2500 pips from cold storage, Chicago and New York.

The Supply is very limited this season, therefore let us book your order at once for delivery when desired. Prices quoted on request.

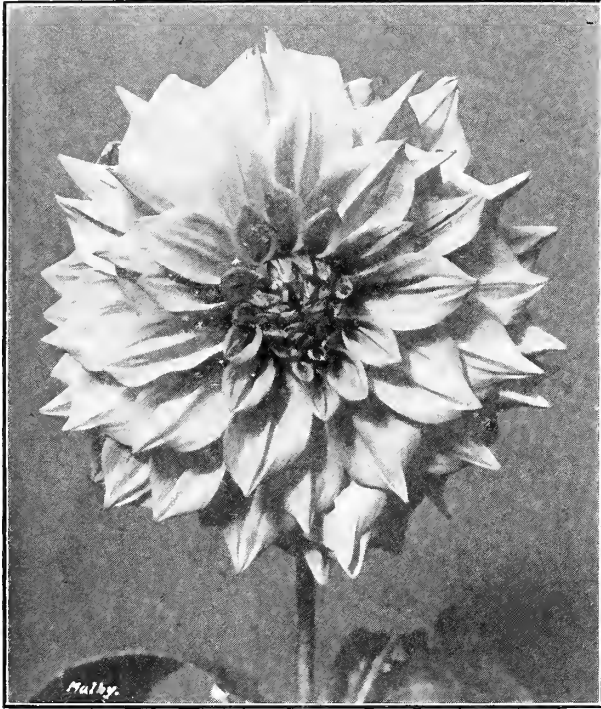

RETAILING BULBS

A Profitable Side Line for the Retail Florist
There are today numbers of florists located in the country and smaller towns conducting a retail establishment, who make the retailing of Bulbs during Spring and Fall a most profitable side line. In fact, we know of quite a few who have worked up this branch to a point where the profits thus obtained almost pay for the entire stock of bulbs they themselves use for their own requirements.

Dahlias

(TRUE TO NAME)

There may be other flowers with as gorgeous colorings, with as delicate tints and shadings, with as great a diversity of form and habit, but where can be found another possessing all these valuable traits that will grow in every clime and under such varied conditions as the Dahlia? We furnish strong divided tubers of the better varieties. Such as are contained in this list are in a class by themselves in the way of furnishing desirable cut-flower material for the late summer and fall season.

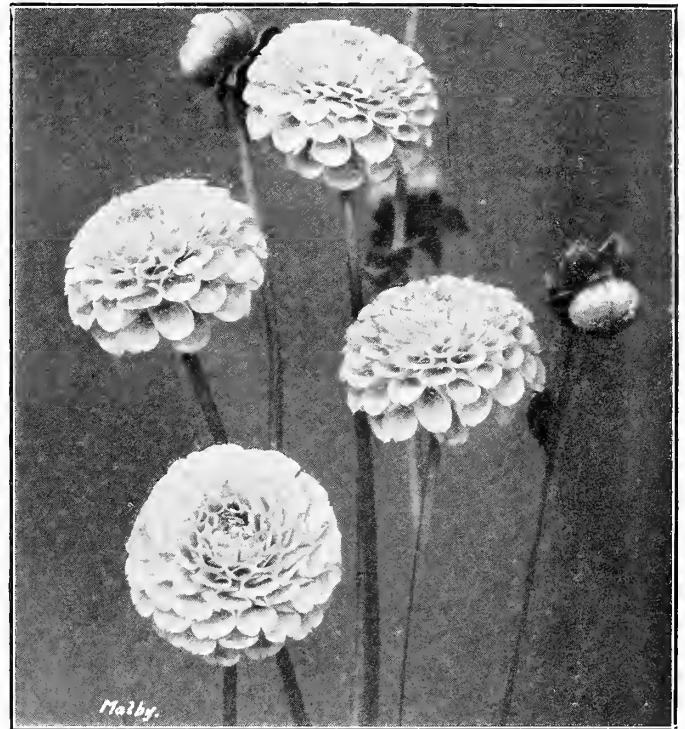

TYPE OF DECORATIVE DAHLIA

	Each	Doz.	100		Each	Doz.	100

Japanese Lily Bulbs

Field of *Lilium Giganteum* in Japan Produced Exclusively for the American Bulb Co.

OUR LEADING SPECIALTIES

Formosum, "Erabu,"

Giganteum, Album, Rubrum Magnificum

Lilies, particularly for Easter blooming, are probably the most important of the entire category of bulbs planted by the florist and we have no intention of competing in the production fields with dealers whom, when buying supplies of same, make price their one and only consideration. Our motto has and always will be "Quality First" and how well our personal Japanese representative has succeeded in supplying such is now attested by the fact that A. B. C. "Supreme" quality lily bulbs enjoy a reputation that brings forth commendations such as the following:

ADOLPH D. MOHR
Florist
76th and Broadway Kansas City, Mo.

American Bulb Co.,
172 N. Wabash Ave., Chicago, Ill.

Gentlemen:
While resetting Lilies, we came to your lot. My nephew, who is sixteen years of age, said this:
"Now, what is the reason that all at once we get into such an even, splendid lot of Lilies so well budded."

My answer was that they were from the AMERICAN BULB COMPANY, and I feel that they are the best I have on the place. You will have to reserve for me more than my usual lot for next year.

Thanking you for past favors, I remain,
Very truly yours,
(Signed) A. D. MOHR.

We are jealous of this reputation and it will always be our aim to supply the best that the season produces and at selling prices consistent with the cost of such.

FREESIA

A. B. C. "Supreme Quality"

We believe we are the largest handlers of high-grade Freesia bulbs in America. All our fields are thoroughly examined during their growing stage by members of the firm to insure our customers the best the crops can produce. We can deliver Freesia bulbs early enough to enable you to get them in bloom for Christmas, if properly handled. Our bulbs are not grown in the wet district of California, but are properly watered by irrigation. They are all grown near Los Angeles, which florists in California recognize as the best place to grow high-grade bulbs. The fact that we sell quantities in California of our own growing is evidence that florists know, where the best quality is produced.

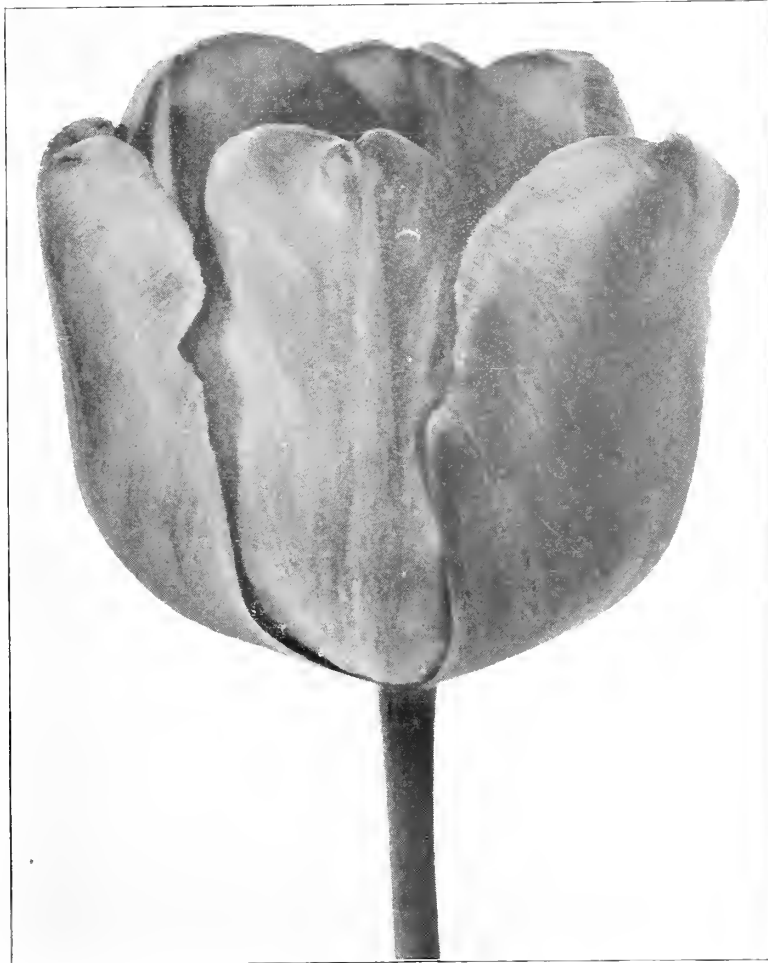

CALLA

We are headquarters for Calla Aethiopica, Godfrey and Sutton's Multiflora. Crop of these has been rather short during the past few seasons and we advise early ordering of next season's supply.

ABC

SUPREME QUALITY

BULB STOCK SEASON 1924
FOR FORCING AND BEDDING
AMERICAN, FRENCH, HOLLAND, JAPANESE, ETC.

TYPE OF DRAWIN TULIP

“DOING ONE’S BEST WITH BULB STOCK”

Having been frequently called upon by many in the trade, especially new beginners, to furnish cultural directions for bulb stock, we have had compiled by a grower and retailer of some forty years experience and who now enjoys a national reputation for “know how” in practically all horticultural lines, complete suggestions as to “How to Do One’s Best” with the various stocks mentioned. In presenting this little booklet to the trade with our compliments we do so with the sincere wish that the perusal of its contents will enable one to attain the greatest possible success with any of the material mentioned and of which they might undertake to produce.

N. B.—A copy of the above booklet is yours for the asking.—A. B. C.

WHY WE CAN SUPPLY YOU TO ADVANTAGE!

Our establishments are located at central points, namely, New York and Chicago.

Personal inspection during growing and packing season.

A force of *trained employees* who “*know bulbs*,” many of whom have had a lifetime training in this particular line.

We advance duty, forwarding, and all expenses. no charge is made for cases or packing, and our invoices show exactly *the actual cost of produce placed on cars at American shipping point.* Our terms of payment are liberal to buyers of time standing, such extension of time being allowed on duty and all expenses as well as on cost of bulbs: *(we do not collect for such at time of shipment as occurs when you import direct)* shipping f.o.b. New York or Chicago, *thus eliminating all worry and possibility of brokers overcharge to the buyer.* Our experts visit the most prominent bulb forcing centers of this country during flowering season as well as to keep in close touch with the public demand, *thereby insuring our customers varieties that are in keeping with the times.*

We can and will make it worth your while to look to us for your BULB NEEDS” each season—seasonable price lists mailed to the trade, and if your name is not on our mailing list we shall be glad to enter same thereon.

We are always pleased to consult with growers either in person or through the mail with regard to cultural methods, etc.

Soliciting the favor of your orders, we are.

Yours faithfully,

AMERICAN BULB COMPANY

Per A. MILLER, Pres.

Hardy Perennial Plants, Etc.

All stock offered (unless otherwise noted) represents strong, one-year, field-grown plants, for early spring delivery

A. B. C. "Supreme Quality"

TRITOMA PFITZERI (See Page 29)

There are many Perennial Plants that should be grown more abundantly by florists than is now customary, and not a few of them can be slowly brought along under glass to produce a profitable out-of-season crop, either as pot plants or for cutting.

For years Delphinium Belladonna has proven a rare Easter money-maker, but latterly even this has been surpassed by the more delicately colored Hybrids whose huge spikes bring almost any price asked for at that season. Pyrethrum, Dielytra and many others are also seen in early Spring.

Most perennials, however, are useful during their natural outdoor seasons and florists should devote more space to their culture, among the most common that occur to us now are, Achillea, Aquilegia, Gaillardia, Helianthus Dianthus Plumarius, Phlox, etc.

Those offered below are strong field divisions, that establish themselves quickly and will give good blooms the first year.

PLACE ORDER NOW.

HARDY LARGE FLOWERING "MUMS"

No florist should be without a liberal supply of these Hardy Mums, as they produce a large supply of valuable cutflowers in the autumn.

	Per 100
Autumn Glow	\$12.00

Hardy Perennial Plants, Etc.—Continued

DELPHINIUM (Hardy Larkspur)

For outdoors or for forcing this class of flowers is indispensable to the progressive florist.

DELPHINIUM BELLADONNA

(Hardy Larkspur)
FOR FORCING

These provide very desirable blue cut flowers for early spring season.

Our grower is making a specialty of the above, selecting only strong crowns, suitable for this purpose. Same are usually benched about February 1. Delivery can be made then, or if you are in position to care for them in the meantime, they can be forwarded at once. Where delivery is made now, roots should be stored in a coldframe until time to set in the greenhouse. In the meantime, a moderate freezing is necessary, in order to cause roots to become thoroughly dormant. (Complete cultural directions free.)

Price. Strong Forcing Crowns, per 100, \$15.00; per 1000, \$125.00.

- BELLADONNA turquoise blue, 1 year old, per 100.....\$10.00
- Bellamosum, 1 year old, strong\$10.00
- English Hybrids, 1 year 11.00
- English Hybrids, 2 year 16.00
- Queen Mary Hybrids, 2 year 16.00

- MONARDA; Cambridge Scarlet..... 10.00

Improved New Hardy

GIANT-FLOWERING

MARSHMALLOWS

The most free-blooming of all Perennials; rich, gorgeous and hardy as an oak.

A wonderfully improved form of our greatly admired native Marshmallow or Rosemallow, in which not only the colors have been greatly intensified, but in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed. These plants can be highly recommended for all kinds of plantings. They appear to be equally at home in all positions, having the same vigor in dry and wet ground and are perfectly hardy. They grow from 5 to 8 feet high, and are very floriferous, blooming from early in July until late in September. Price, \$10.00 per 100; per 1000, \$75.00.

PHLOX DECUSSATA

AMERICAN-GROWN FREESIAS A. B. C. "Supreme" Quality

NOVELTIES of Genuine Merit The following seven most beautiful new colored Freesias are the result of many years of painstaking effort on the part of that well known specialist, ALOIS FREY, of California, who introduced a few years ago the grand variety, GENERAL PERSHING, which today commands the largest sale of any Colored Freesia ever placed on the market. These choice Freesia Novelties created a sensation in the Chicago Cut Flower Market the past season, the stock having been furnished by Alois Frey Greenhouses, Crown Point, Indiana, to E. C. Amling Co.

- EARLY ORDERS** for FREESIAS, especially larger sizes for early blooming, will, we believe, prove mutually advantageous.
 - AURORA**—A large-flowering yellow suffused with orange; a variety which has many admirers.
 - CALIFORNIA**—A large flower of bright, golden yellow, extra fine, strong growth and long stems; one of the very finest yellow freesias.
 - CARMENCITA**—Medium sized flower of a beautiful light orange-salmon hue with buff shading on the lower petals; long, wiry stems.
 - CARRIE BUDAU**—A lavender pink, a great improvement over Gen. Pershing, larger flowers and heavier stems; an enormous grower and producer.
 - ILENA**—Deep rosy lavender with white throat, deep orange blotch on lower petal and good stiff stems; flowers very large and very attractive.
 - OLIVETTE**—Bright carmine red with light yellow throat, lower petals having a deep yellow blotch with crimson veins; very profuse bloomer.
- Price of above varieties: Per 100, \$4.50; per 1000, \$40.00.
- JUNE MICHELSEN**—Large-flowering, deep rose pink with light bluish throat; three lower petals are veined purplish crimson with a deep yellow blotch on center petal; good stiff stem and strong constitution; a variety of special merit.
- Price: Per 100, \$5.00; per 1000, \$45.00.

Descriptions are by Mr. Frey, and bulbs offered are of his own raising.

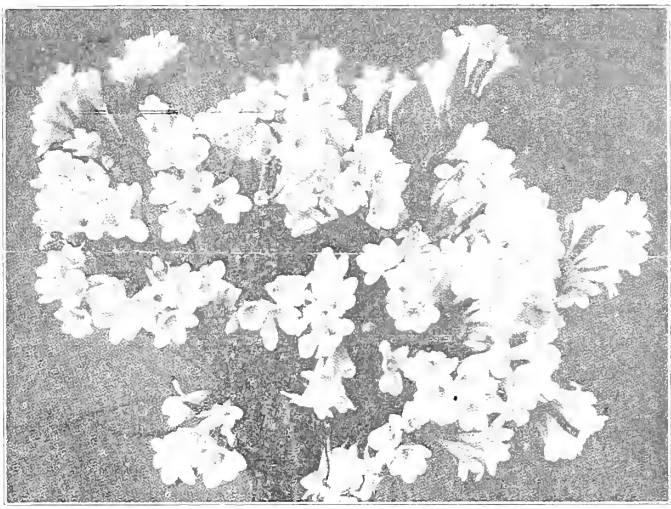

GENERAL LIST OF COLORED FREESIAS

	Per 100	Per 1000
Fischer's Delicate Blue Splendens.....	\$4.00	\$40.00
Frey's General Pershing, light bronze.....	3.00	25.00

American Bulb Company, Chicago, Ill.

Gentlemen—Just a word about the Freesia bulbs you sold me. I have grown Freesia bulbs for the past 20 years, but I have never before cut so large a percentage in December. I cut fully 50 per cent of my crop for the Christmas holidays. They were fine and sold well at the Michigan Cut Flower Exchange in Detroit. Your Dutch bulbs are also fine.

Yours truly,
ROBERT KLAGGE, Mt. Clemens, Mich.

Type of FREY'S NEW HYBRID FREESIAS

FREESIA PURITY—Improved

We believe we are the largest handlers of high-grade Purity Freesia bulbs in America. All our fields are thoroughly examined during their growing stage by members of the firm to insure our customers the best the crops can produce. We can deliver Freesia bulbs early enough to enable you to get them in bloom for Christmas, if properly handled. Our bulbs are not grown in the wet districts of California, but are properly watered by irrigation. They are all grown near Los Angeles, which Florists in California recognize as the best place to grow high-grade bulbs. The fact that we sell quantities in California of our own growing is evidence that florists know where the best quality is produced. Bulbs offered in the following sizes:

	Lots of 5,000			Lots of 10,000			Lots of 25,000		
	Per 100	Per 1000	Per 1000	Per 1000	Per 1000	Per 1000	Per 1000	Per 1000	
1/2 to 3/8-inch	\$1.25	\$10.00	\$ 9.00	\$ 8.50	\$ 8.00	\$ 8.00	
3/8 to 1/2-inch	1.75	15.00	14.00	13.00	
1/2-inch and up, scarce	3.00	25.00	23.00	
3/4-inch and up, very scarce	4.00	35.00	

WE FURNISH FREE OF CHARGE COMPLETE CULTURAL DIRECTIONS FOR FREESIAS WHEN SO REQUESTED BY CUSTOMER.

"There is hardly any other flower that the florist, particularly the retail grower, handles during the Winter and early Spring months as useful as the Freesia. Whether you have to fill an order for a bride's shower bouquet, a corsage, a funeral design, a spray, a basket for the table or a box to go to the sick room, Freesias are most appropriate; nor can you mention any flower that they won't go with. They can be had in flower from Christmas to Easter, and among the crops it pays even the small grower to handle, they hold first place."

GROW MORE FREESIAS

By Fritz Bahr, the well-known florist and dean of horticultural writers

"No matter how much of little Dutch bulb stock you force during the Winter months, keep on paying more attention to Freesias.

"Coming as they do now in so many different shades and colors, and with their flowering period extending practically over four months, Freesias are considered among the most desirable of florists' flowers. And few plants that we grow from bulbs are more easily handled.

Freesias For December Flowering.

"Freesias." That sounds like the approach of Fall and Winter; and that is exactly what we have to look forward to and to prepare for. The first batch of Freesias should be planted during July if blooms are desired toward the end of December, and only large sized bulbs should be used for this purpose. Freesias cannot be forced so as to get them in extra early, but matters can be helped along by using large bulbs. Grow these in pots or pans, allowing not less than one inch of space between the bulbs. During October, November and December, allow the plants to have a sunny bench in a Carnation house. Up to October, carry the plants outdoors in a coldframe; while freshly potted bulbs should be shaded, as soon as growth is under way, permit them to have full sunlight. Why not order your requirements in the way of bulbs now? It is a poor policy to commence looking around for bulbs when ready to plant them out."

PERSONAL INSPECTION DURING VARIOUS STAGES OF PRODUCTION AND SELECTING OF BULBS INSURES OUR CUSTOMERS A. B. C. "SUPREME" QUALITY.

Fischer's The "Master Cyclamen"

Is Planted By "The Particular Grower"

FROM MAINE TO CALIFORNIA

Fischer's Giant or "Show" Cyclamen seed is the result of 30 years of experience in the "know-how" of Cyclamen culture, and Florists who appreciate the ultimate in quality will have no other strain. See below for one of the numerous testimonials which we have received from specialists who practice the culture of Cyclamen in a large way.

Partial view of FISCHER'S GIANT OR SHOW CYCLAMEN at extensive establishment of Walter Armacost & Co. (Sawtelle), Los Angeles, California. This firm is noted for the accomplishment of "big things" in a horticultural way on the western coast.

TESTIMONIAL

All of the Cyclamen Seed furnished by you has germinated well. The seedlings have been thrifty, the flowers perfect in color, of large size and borne on heavy stems. We have always been very partial to the Ferd. Fischer Strain.

(Signed) WALTER ARMACOST & CO.,
Per Walter Armacost.

TO MY CUSTOMERS:

I have paid strict attention to my Salmon and Red shades particularly for the American trade. My seed will be offered by the American Bulb Company. It is with pleasure that I recommend to all florists who are growers of high class plants to try out my seed. I hold recommendations from the best growers in the world.

Yours very truly,

FERD. FISCHER.

FOR "BETTER PANSIES" SOW

"Private Stock"
EXHIBITION

PANSY MIXTURE

Realizing the importance of the Pansy to many growers both as cut flowers and for bedding plant sales, and the fact that **Fancy Pansies** are half sold when offered to the public, we offer

A. B. C. "Private Stock" Exhibition Mixture

PANSIES that "Sell on Sight"

which has been grown for us exclusively by the foremost Pansy Specialist in the East and without exaggeration we can state that this strain represents the Acme of Pansy culture.

The flowers are of enormous size and of unusual substance, with long, strong stems. This strain comprises a most beautiful collection of colors and markings, including very rare shades of scarlet, brown, blood red and purple, and is the **finest mixture**, in size, color and texture. We may add that all who saw our Pansies declared they had never seen flowers of such perfection.

The seed is saved by careful selection from the most perfect flowers only.

Trade pkt., 50c; per 1/8 oz., \$1.25; per 1/4 oz., \$2.00; per oz., \$7.00.

A. B. C. SPECIAL CUT FLOWER STRAIN, tr. pkt., 50c; 1/8 oz., \$1.25; 1/4 oz., \$2.00; per oz., \$7.00.

GIANT TRIMARDEAU CHOICE MIXED, tr. pkt., 30c; per oz., \$2.25.

STEELE'S MASTERPIECE MIXED, 1/8 oz., \$1.00; 1/4 oz., \$1.75.

A. B. C. "SUPREME" MIXTURE OF CINERARIA

"THE WORLD'S BEST STRAIN"

The result of many years of painstaking selection on the part of an American specialist and truly entitled to the classification "WORLD'S BEST STRAIN," produces immense trusses of blooms which frequently measure from three to four inches across. Plants medium tall.

1/2 Trade Packet, 60c; Trade Packet, \$1.00;
6 Packets for \$5.00.

CINERARIA

MUELLER'S AND MOHNSTEIN'S

MULTIFLORA NANA MIXED; a very dwarf strain of exceptional merit. Desirable for combining with other plants for filling of baskets, boxes, etc., for Easter and Mothers' Day sales.

1/2 Trade Packet, \$1.00; Trade Packet, \$1.50.

The following is one of the many expressions we have received with regard to A. B. C. "SUPREME" CINERARIA:

American Bulb Co.

Chicago, Feb. 11.

Dear Sirs:

Your "Supreme" mixture of Cineraria is by far the best I have ever grown both as to size and wonderful colors. In my opinion it would be difficult to improve on the same.

Yours truly,

N. A. SCHMITZ, Mgr.,
Angel Guardian Greenhouses.

We wish to call special attention to offering of new

Cineraria Multiflora Nana
(Mueller & Mohnstein strain)

(See opposite.)

This very dwarf type is extremely desirable for use in connection with bulbous plants, etc., for filling of baskets, boxes, etc., for Easter and Mothers' Day sales.

SNAPDRAGON

The most profitable all-season plant.
Seeds may be sown any time.

Philadelphia Pink

is considered the

Finest Pure Pink Snapdragon Grown!

Philadelphia Pink
Photographed
Dec. 20, 1922

FLOWERS: Rich, glowing pink, approaching that of the Ward Carnation. A most useful color at all times. Beautiful under night illumination.

Very large, well-formed flowers, evenly distributed about the stem, and holding unusually long. We have counted over 30 open flowers on one spike.

FLOWERING SEASON: September to July, although we do not encourage the first cutting until mid-Autumn. Under proper conditions and a normal season, the crop should flower continuously.

IN GENERAL: Philadelphia Pink is a thoroughly reliable, thoroughly tested variety. Ten years of careful breeding and selection preceded its introduction to the trade. Philadelphia Pink has become the favorite of Snapdragons. Over six thousand growers (several of these in Australia and South Africa) planted it last season, and we are already booked heavily for the new seed crop.

A well-grown Philadelphia Pink rivals the Rose, and is far more economical and easy to grow. Our special directions for its culture are included with every order. These are followed by endorsements from leading growers, retailers and seedsmen.

Order NOW. This cold, wet Spring has been unfavorable for seed production, and since all seed sold must pass a high germination test, orders will be filled in strict rotation.

1 tr. pkt., \$1.00; 6 tr. pkts., \$5.00; 25 tr. pkts. or more at special prices.

CULTURAL DIRECTIONS FREE WHEN REQUESTED

HELEN

Lovely Salmon. A worthy companion to Philadelphia Pink. \$1.00 per Pkt.; 3 Pkts. for \$2.50; 6 Pkts. for \$5.00.

Ramsburg's Special Cut Flower Strains OF SNAPDRAGON

Silver Pink; Helen, lovely salmon; Golden Pink Queen; Orlando, bronze, and Hybrid Pink, \$1.00 per pkt.; 3 for \$2.50; 6 for \$5.00.

Light Pink, White, Yellow, Scarlet, Garnet, Chestnut, Nelrose, Buxton, Keystone, and Fancy Mixed, 50c per pkt.; 3 for \$1.25.

OUR SPECIAL PRICE LIST OF EARLY-FLOWERING SWEET PEAS WILL BE MAILED FOR THE ASKING

PLANT LILY BULBS ON FIRST AND FIFTEENTH OF EACH MONTH. MANY OF OUR CUSTOMERS FOLLOW THIS PLAN AND FIND IT QUITE PROFITABLE.

PLANT NOW

Lilium Magnificum (Rubrum) in Pots or Benches probably gives the greatest returns for smallest outlay of any bulb stock which the grower can plant and provides high class cut flowers which fit in admirably with practically all kinds of floral work. Place your order now for anticipated needs up to Sept. 1st, 1924. We make shipment as wanted from cold storage and guarantee sound bulbs as delivered.
